- Conduct field inspections for new installations, repairs, and upgrades.
- Document daily project activities, materials used, and inspection findings.
- Identify deficiencies and ensure corrective actions are completed.
- Prepare inspection reports and maintain accurate project documentation.
- Attend project meetings and provide updates on project progress.

Qualifications

- Bachelor's degree or associate degree preferred.
- Experience in water/wastewater construction, utility inspection, or civil infrastructure preferred.
- Knowledge of water distribution and wastewater collection systems.
- Ability to read and interpret construction plans, shop drawings, and specifications.
- Strong communication, organizational, and problem-solving skills.
- Proficient with basic computer programs and digital reporting systems.
- Valid driver's license with clean driving record required.

Work Environment

- Primarily outdoor field work in varying weather conditions.
- Frequent walking on uneven terrain and active construction sites.
- May require occasional after-hours or emergency response work.

Benefits

- Health, dental, and vision insurance
- Paid time off and holidays
- Retirement plan
- Mileage reimbursement
- Training and professional development opportunities
